

GLASS ORE - TRANSLUCENT GLASS BRICKS

Unleash your creativity with Glass Ore hand-cast glass bricks. With the width and texture of a traditional masonry brick, Glass Ore dramatically changes the appearance of a room when lit from behind or underneath. Ideally suited for artistic accents, Glass Ore can be used in interior or exterior applications for a striking look.

APPLICATIONS

- BORDERS AND ACCENTS
- WALLS
- MONUMENTS
- WALKWAYS

SURFACES	Rough (except base, which is smooth)
TOP SURFACE DIMENSIONS	4" x 7.87" (100 mm x 200 mm) Tolerance: +1 mm, -2 mm
BOTTOM SURFACE DIMENSIONS	4" x 7.87" (100 mm x 200 mm) Tolerance: +1 mm, -2 mm
THICKNESS	2" (50 mm) Tolerance: +3 mm, -2 mm
DENSITY	146 lb / ft ³ (2.34 g / cm ³)
WATER ABSORPTION RATE	0.007~0.012 (wt %)
BENDING STRENGTH	18 MPa
COMPRESSION STRENGTH	80 MPa
ABRASION RESISTANCE	0.002~0.005 g
SLIP RESISTANCE	DRY: 85~91 BPN WET: 40~42 BPN
OTHER SHAPE OPTIONS	BAR: 2" x 2" x 39.4" (50 mm x 50 mm x 1000 mm) RECTANGLE: 4" x 2" x 24" (100 mm x 50 mm x 600 mm)

These numerical values are measured, not guaranteed. Glass Ore bricks have individual characteristics that may differ in thickness, transparency and color tone. Actual color may differ from this representation. Please request a sample brick to confirm.
