

STEELBUILT WINDOW & DOOR® SYSTEMS

SteelBuilt Window & Door Systems incorporate precise European engineering, providing a sleek, modern alternative to traditional aluminum or hollow metal frames. These systems feature narrow steel profiles that offer greater strength, superior performance and improved aesthetics.

FEATURES

- Narrow steel profiles
- Doors available in single leaf or double leaf design
- Can be used with a wide variety of glass products
- Frames typically supplied welded and ready for installation, or "K-D" as necessary
- Fire ratings available up to 90 minutes
- Durable welded steel construction of doors
- Variety of hardware available
- Available in stainless steel or powder coat painted
- Fabricated in the U.S.A.

PERFORMANCE OVER TYPICAL ALUMINUM SYSTEMS
